FLEET BATTERY CHALLENGES

- ⚠ Batteries drain when trucks sit idle
- ⚠ Unexpected failures cause costly downtime
- ⚠ Manual inspections often miss issues
- ⚠ Maintenance lacks real-time visibility

PREVENT COSTLY DOWNTIME – MONITOR EVERY BATTERY 24/7

- ✔ Automate Battery Health Monitoring
- ✔ Integrate with Fleet Telematics
- ✔ Receive Early Failure Alerts
- ✔ View Data on Dashboards & Apps

HOW AGMGUARD WORKS

AGMGuard™ software can be deployed on Samsara, Platform Science, or any other cloud data platforms used by trucking fleets. These platforms transmit data via their cellular networks to the DyoCense IoT cloud platform, where the data is processed and made accessible through web browsers or smartphones, providing user-friendly, interactive dashboards.

STOP ROADSIDE FAILURES • EXTEND BATTERY LIFE
